The Music School Vojtěch o.p.s. was established in October in 2012. It continues a four-year-long musical education of children in the parish of Saint Vojtěch. Currently, forty children from the age of three to twelve attend a regular individual and group tuition that is focused on the development of their musical and choral abilities. The main aim is to look after musical abilities of children in general. We also focus on the education of future chorus singers for the Parish Chorus of Saint Vojtěch and the South Bohemian Region. There is a call for a chorus which could well cooperate with the South Bohemian Chamber Philharmonic on the occasion of the realization of instrumentally vocal pieces of music. Based on the examples from advanced European countries, this type of care is very important.

The school attendees have already appeared in several concerts in public in the church of Saint Vojtěch in Ceske Budejovice. The headmaster of the school is a good-experienced teacher and conductor. He has a long-term praxis (Basic School of Arts, Conservatoire). There is also a qualified young teacher of singing.

The centre of ecological and global education Cassiopeia was founded with a segment of Brontosaurus Forest movement in 1995. On a long-term basis, Cassiopeia deals with the education of pre-school, primary and secondary school children, and teachers in environment, multicultural and personality social education. The goal is the facilitation of the integration of environmental education into school educational programmes. The centre cooperates with many schools in South Bohemian Region, and since 2010, there is cooperation with Pilsner Region.

There are several actions within the school year:

Public actions held in a natural garden in spring and autumn

“The Car-Free Day” held in the main square in České Budějovice (in September)

“Heart full of sun” – “Children’s Day” – action for disabled children

Action within the autumn days of the environmental education („EVVO“)

Conference for the pre-school teachers (October)

Conference for the primary and secondary school teachers (November)

The Czech Council of Children and Youth of the South Bohemian Region is the webmaster of www.jihocesketabory.cz.

This website provides the most complex offer of summer camps, camp bases and campsites not only of the member associations of the Czech Council of Children and Youth of the South Bohemian Region. The offer of camps and camp bases is incredibly wide. You can choose among building, tent, traveling, suburban, one/two/three or more-week-long camps. There are many organizers. We would like to facilitate you the difficult choice of choosing the right camp for your children, or the right camp base. The organizers of camps, the owners or runners of camp bases or campsites can register their offers for free for unlimited time, they can also update their data.

Why should you look for your camp on our website?

The most complex offer of camps in the South of Bohemia.

Many camp offers from the member associations of the Czech Council of Children and Youth of the South of Bohemia.

Camp organizers can register their offers for free and update them.

How to choose the right camp? The answer for this question and many practical information can be found in the „Download section“.

Our goal is the satisfaction of parents and the joy of their children.

(“LITTLE ENERGETIC ACADEMY”)

The competition promoter is **E.ON Česká Republika, s.r.o.** The South Bohemian Region competition organizer is **Council of Children and Youth of the South Bohemian Region.**

There are several main goals of this competition such as to increase the children's and youth's knowledge of the energy industry and ecological issues, to teach them to acquire the principles of a responsible approach to the environment, to increase the children's security, and finally to enliven the leisure time of the young generation. The competition makes a wide offer of children's and youth's free-time activities for both "organized children" (clubs, after-school care centers, classes) and "unorganized children" (individuals, families, gangs of friends) in trying to increase their knowledge, dexterity, communication, media ability and team cooperation by using layman's scientific approach.

All children and youth living in the **South Bohemian Region**, in the **Vysočina Region**, or in the **South Moravian Region** can participate in the competition.

There are four categories of competitors:

- **The individuals**
- **The small groups**
- **The class teams**
- **The big groups**
-

The competition composes of **five stages**, and at each of them every competitor has to complete a given task. Throughout the school year, from September to April, all winners of the singular competition stages get announced. The whole competition finishes in May when absolute winners of singular categories get announced. Regularly, the announcement takes place in the course of Bambiriada.

The individual who gains the **biggest number of points** after getting through all five stages of the academy receives a price to the value of **6,000 CZK**, the one who gains the **second biggest number of points** receives a price to the value of **4,000 CZK**, and the one who gains the **third biggest number of points** receives a price to the value of **2,000 CZK**.

The small group and the class team that gain the **biggest number of points** after getting through the five stages of the academy receive a price to the value of **13,000 CZK**, those that gain the **second biggest number of points** receive a price to the value of **8,000 CZK**, and those that gain the **third biggest number of points** receive a price to the value of **4,000 CZK**.

The big group that gains the **biggest number of points** after getting through the five stages of the academy receives a price to the value of **25,000 CZK**, the one having the **second biggest number of points** receives a price to the value of **15,000 CZK**, and the one having the **third biggest number of points** receives a price to the value of **10,000 CZK**.

Země-Nezemě is a civic association. It organizes camps for children and youth, equestrian camps and thematic weekends for families. In the course of the year, there are also riding and hiking circles. We make programs for outdoor school lessons and organize courses of adaptation. We also take a share in the actions organized by Olešník municipality. There is a farm in the South of Bohemia (close to Hluboká nad Vltavou) that provides us with ideal background for our actions. It is located in a lonely place and surrounded by forests.

The Training Canistherapeutic Association Hafík has been running for twelve years. The reason of its establishment was the introduction of canistherapy in the Czech Republic.

Since 2008, the association has been an accredited voluntary centre. It is the only one Czech member of the European association ESAAT that is based in Wien.

Currently, we have been making regular voluntary canistherapeutic programs all over the Czech Republic. The association takes patronage over 60 canistherapeutic teams that assist in 38 health-social and school facilities all over the Czech Republic.

All the volunteers together with their dogs are educated and supervised.

Next, there are one-off programs that focus on experience and preventive activities. These programs are realized in school facilities while the main aim is to teach children how to treat dogs in order to minimize the frequency of dog attacks.

Last but not least, there are special stays that focus on canistherapy. In particular, there are one-week-long canistherapeutic camps meant for both health and disabled children. There are also weekend stays at disposal.

The civic organization runs educational sessions, conferences and counseling in the area of canistherapy. In 2012, the organization started to work with other animals: tortoises and little ponies.

We are a children's touristic group. For over a quarter a century, we teach children how to protect and live in nature. Children learn about real human rules and values; they can find real friendships here. We encourage their competitiveness in the spirit of "fair play". The group members learn about nature, basic types of knots, Morse code, and the first aid. There are both boys and girls from 7 to 18 years old. Among others, we also try to harmonize the relationships among these different age groups. We meet in the Lanna's boathouse from 16.30 to 18.30 every week. Once a month, we organize a weekend trip to the countryside, where we play games and develop our skills.

Every summer, there is a fourteen-day-long summer camp in our campsite that is situated close to Velešín. We sleep in tents. Every year, there is a different game. We become Indians, sailors, knights or pirates. There are some favorite additional actions such as the "Eyelid game", the "Halloween night", the "Devil's meeting", the "Hedgehog game", skating, cooking, weekend trips (the "Christmas trip", the "Corn trip", the "Easter trip", the "Dragon trip" etc.) and the "72 hours project".
